- V.** Otsego County Drug Task Force – Option to join forces
- VI.** MiPHY
 - Data analysis committee
- VII.** Next Meeting
 - January 7th, 2018 at GHS in the Media Center 3:30-5pm
- VIII.** Adjourn

Summary of Discussion

III. Youth Updates

Recruitment

- **RISE Event**

Suggestions were made to do three educational sections at the RISE event on the 15th. One for marijuana, alcohol, and vape use. The idea of choice for the alcohol breakout is the impairment goggles with the go carts. Pizza will be the option for lunch. Ice Breaker activities and education on RISE and coalitions will also be done with the youth.

- **Adult Sectors**

We have done a GREAT job recruiting for the adult portion of RISE. Areas left to fill to really round out our group's expertise and capabilities are:

- a. adults from an area of business (a business that is interested in not serving minors, or has a special care for employing substance free employees/youth)
- b. a youth serving organization (say YAC for example)
- c. civic or volunteer group member (Rotary, Kiwanis, ect)
- d. state, local, tribal, or governmental agency (county commissioner, judge, ect.)
- e. Media (someone to help with advertising)

- **Social Media**

RISE will eventually make our presence known to the social media world. It was discussed that youth has gotten away from using Facebook, and typically lean toward Instagram. When this is done in the near future, I will create a Facebook and Instagram, as to reach parents and youth with education and events.

VI. Logic Model

There were many new faces at this meeting. We discussed CADCA, what coalition work entails, and that our work is data driven. Logic models for Otsego County were gone over that include logic models for marijuana, alcohol, and vape use among youth. They start with a Problem Statement, go to the Root Cause (but why?), and end with the Local Condition (but why here?). The vaping logic model is not complete, as key informant and focus group data have not been obtained yet.

Action Items

Sierra will contact Trooper Hebner regarding goggles/cart

Need volunteers

Flyer attached to this email! Advertise!

Continue to brainstorm other adult options

Adults make notes to bring to next meeting from key informant interviews regarding blanks in Vaping Logic Model

Sierra will contact individually regarding

Completing Key Informant and Focus Groups: This needs to get completed. For focus group info: suggestions to send out surveys on paper or via email and have teachers set aside 5 min for students to take them. Key informant: adults at mtg educated on discussing the local conditions with friends, other parents, or teachers and keeping notes for this purpose.

V. Drug Task Force

Discussion is underway regarding the adult portion of the RISE coalition and the Otsego County Drug Task Force joining efforts/meetings as very similar discussions and efforts may be taking place by similar people at both meetings. Standby for more information on this.

VI. MiPHY Data Analysis

Analysis took place regarding some of the local Michigan Profile for Healthy Youth (MiPHY) data and similar questions on the statewide Youth Risky Behavior Survey (YRBS). Doing this allowed us to compare our county's high school student data to that of the state's high school students.

VII. Next Meeting

Monday January 7th, 2018 GHS Media Center 3:30-5:00pm
It is located upstairs near the south side of the building.

VIII. Adjourn

4:58pm

availability to do focus group

Sierra and Susan to meet with Lynda at CHS about joining forces next week

Data spreadsheets attached to email for those that want copies
