

**2019 CONTRACT - TRANSIENT FACILITY  
LEVEL 2 (L2) ASSESSMENT AND WATER SAMPLING**

The contract below is offered as an **option** to have the Health Department of Northwest Michigan (HDNW) conduct, on behalf of your facility, the necessary water sampling to maintain compliance with the Safe Drinking Water Act (Act 399) and Revised Total Coliform Rule (RTCR). Contracting with the Health Department will assure compliance with all water sampling and reporting requirements and assure that your facility is providing safe, clean drinking water to your patrons and employees

Below are the two contract options available in 2019:

- Option 1(\$375.00): Level (2) Assessment and Annual Monitoring**
- A Level 2 (L2) assessment conducted by the Health Department (**required for annual monitoring**)
  - Annual Bacteriological and Partial Chemical monitoring
  - Any necessary follow-up sampling (facility to pay additional lab costs)
- Option 2(\$375.00): Quarterly Monitoring**
- Quarterly Bacteriological monitoring
  - Annual Partial Chemical monitoring
  - Any necessary follow-up sampling (facility to pay additional lab costs)

**Due by: February 1, 2019**

If you would like to contract with HDNW, simply select the option you would like, completely fill in the information below and return with payment to: **HDNW, 95 Livingston Blvd., Gaylord, MI 49735**. If you have any questions, please call Kristy Forrest at 989-732-6861.
