

# COVID-19 Antrim County Monthly Summary – November 2020

The purpose of this monthly summary is to provide you with more information regarding cases referred to the health department over the past month. Information is obtained through the Michigan Disease Surveillance System (MDSS). Data provided is for confirmed cases only unless otherwise noted as probable. \*Starting November 24, 2020, we began reporting total COVID-19 cases, which includes the sum of confirmed and probable cases. This report reflects that change.

**There was an increase in total COVID-19 cases this month.**

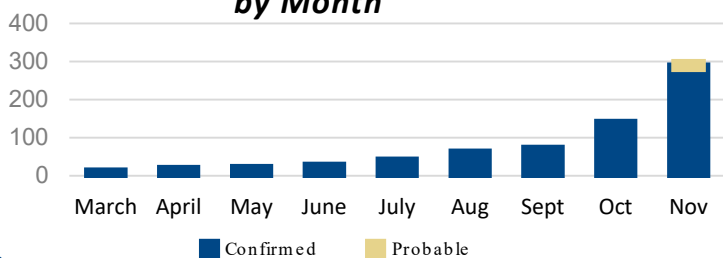

**Known source of exposure has been identified for less than half of the cases.**

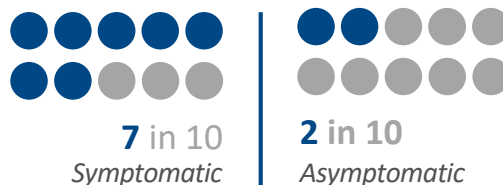

1	31 cases were associated with a named outbreak
2	Of those unassociated with an outbreak, 70 cases were household contacts meaning they are connected to another positive COVID-19 case <u>within</u> the same household.
3	Of those unassociated with an outbreak, 24 cases were a community contact meaning they are connected to another positive COVID-19 case <u>not within</u> the same household.

**Antrim County Cases by Month**

\*Began reporting total cases in November

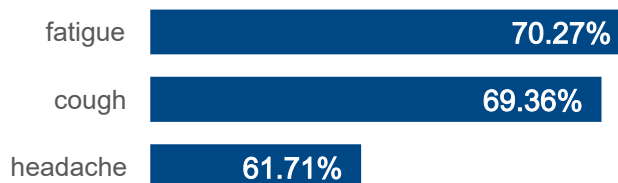

**The majority of cases were symptomatic during their course of illness. \***

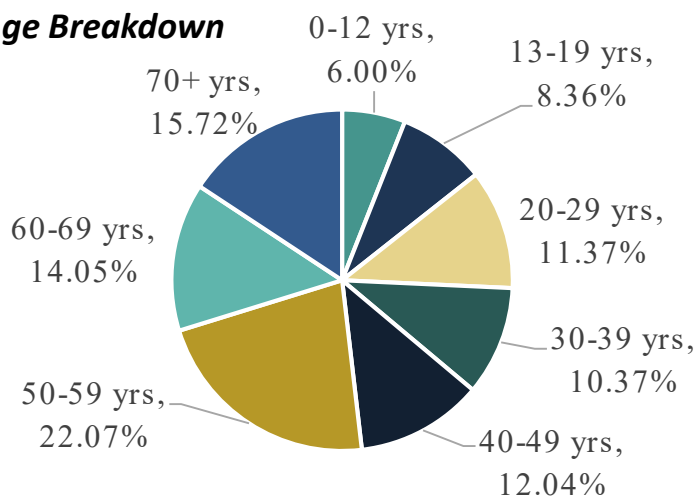

\* Symptomatic and Asymptomatic are both contagious. Symptom status of some cases was unknown at the time of this report.

**The most common symptoms were fatigue, cough, and headache.**
