## The Path to Reading...

### 3 years

Your pre-schooler is constantly learning. This is the time to send the message that reading and learning are fun!

#### You can:

- ★ Say silly rhymes like “silly, nilly, willy, Jilly.” This helps your child hear how sounds are similar and different so they can learn to read them.
- ★ Let your child continue to explore making marks on paper. This will help them learn that what we say can be written down and that they can write, too.
- ★ Play house or let your child run a pretend store. This give them opportunities to use reading, writing, and words in a different way.

**Book Corner:** Three year-olds like to say things over and over! Simple rhyming books or short nursery rhymes are fun for them to memorize. Start sharing books about counting, the alphabet, shapes or sizes.
