## Childproofing Your Home

Childproofing your home is an ongoing process and now is the time to begin!

Always place your baby to sleep on his or her back.		om Safety:		
( ) Do not smoke when holding infant. ( ) Use a crib made after 1992 and be sure the mattress fits snugly. ( ) Crib slats should be 2 3/8" apart or less. ( ) Put the mattress at its lowest level to prevent falls. ( ) Avoid putting pillows, soft bedding, or stuffed animals in a crib. ( ) If you use a playen with meah sides, the holes must be less than ½" across. ( ) Use a safety belt on infant changing table. ( ) Nightlights should be at least three feet away from the crib. ( ) Nost poison control and physician phone numbers on all phones. ( ) Never leave an infant unattended on changing table, bed, or bath. ( ) Keep bind cords, electrical cords and mobiles out of baby's reach. ( ) Place a baby monitor in the nursery far from child's reach. ( ) Anything that will fit inside an empty cardboard toilet roll is a choking hazard.  **Bathroom Safety:**  **TODO**  **Set water heater to 120 degrees F or below. ( ) Set water heater to 120 degrees F or below. ( ) Babics can fall into a toilet head first and not be able to get out, so be sure to install toilet locks. ( ) Never leave a dulid unattended in or around water. ( ) Never leave a dulid unattended in or around water. ( ) Never leave a dulid unattended in or around water.
