

Our EH offices and Family Health clinics are now re-opened to the public!

Some things have changed. Here's what you can expect:

- If you have an appointment in the clinic, we will communicate with you beforehand to ask some screening questions. You will be asked the same questions again when you arrive.
- When you arrive for your clinic appointment, please call the number found on the door to begin your appointment from your vehicle.
- We will do our best to allow greater time between appointments to reduce waiting times for you and to allow for proper social distancing.
- You may see that our clinic waiting room will no longer offer magazines, children's toys, etc., since those items are difficult to clean and disinfect.
- We are asking ALL clients/visitors to our EH offices or clinics to wear a face covering or mask while in the building, or in your vehicle (for curbside visits), to reduce any potential spread of illness.
- If you do not have a mask, we will provide one.
- If you are FEELING ILL, DO NOT ENTER THE BUILDING! Please call to reschedule your appointment, or come at another time to pick up water bottles or drop off paperwork for an inspection.

We can't wait to see you again! Thanks for your patience and understanding as we work through reopening in the safest way for all of us!
