November 4, 2019

ANNOUNCEMENT of a Request for Proposals:
Building Healthy Places Greenspace Improvement Project to Increase Physical Activity

To Whom It May Concern:

You are invited to submit a proposal for up to $10,000 through the Building Healthy Places Greenspace Improvement Project funding opportunity in accordance with the requirements set forth in the Request for Proposals (RFP), available at www.nwhealth.org/gip.html.

This RFP seeks competitive proposals for the implementation of infrastructure, policy, and educational improvements to public greenspaces, such as parks and trails, in order to create or enhance access to safe and enjoyable sites for physical activity in Northwest Michigan. By improving the aesthetics, accessibility, and safety of public greenspaces, the project aims to increase the percentage of adults and youth who meet federal physical activity guidelines, ultimately reducing poor health outcomes and health disparities in Michigan.

Key dates are below:

<table>
<thead>
<tr>
<th>Letter of Intent Due (See page 7 of the RFP)</th>
<th>Friday, November 22, 2019</th>
</tr>
</thead>
<tbody>
<tr>
<td>Application Information Conference Call (See page 8 of the RFP)</td>
<td>Monday, November 25, 2019 RSVP by Friday, November 22, 2019</td>
</tr>
<tr>
<td>Submission Deadline (See page 7 of the RFP)</td>
<td>Friday, December 13, 2019</td>
</tr>
</tbody>
</table>

For additional assistance, please email k.horan@nwhealth.org. Thank you for your time, effort, and interest in the Building Healthy Communities Greenspace Improvement Projects funding opportunity.

Sincerely,

Kirstyn Horan
Community Health Coordinator
3434 M-119, Suite A

Health Department of Northwest Michigan

220 W. Garfield Ave.

Charlevoix, MI 49720

www.nwhealth.org
Background:

Communities are the places where we live, learn, work, and play. The physical environments and local policies governing our communities can directly influence our health. The Health Department of Northwest Michigan is working toward improving our environments, policies, and physical activity opportunities to ensure that all residents are surrounded by communities that support healthy lifestyles.

In October 2016, the Health Department of Northwest Michigan received a Building Healthy Places grant opportunity from the Michigan Department of Health and Human Services to fund the implementation and evaluation of infrastructure, policy, and educational interventions in the region. These interventions are designed to prevent chronic diseases through community based population health improvements that promote healthful eating and physical activity amongst disparate population groups. Specifically, Building Healthy Places has two primary goals:

1) To reduce unhealthy eating by increasing fruit and vegetable access, availability, and consumption
2) To increase physical activity by improving safety, access, and availability for daily recreation and transportation.

The program aligns with national strategies, the Michigan 4 x 4 Health and Wellness Initiative, the Guide to Community Preventive Services, and objectives of Healthy People 2020 as outlined below:

- Promote quality of life, healthy development, and healthy behaviors across the life span;
- Achieve health equity and the elimination of health disparities;
- Create social and physical environments that promote good health

Grant Focus:

The current Request for Proposals (RFP) encompasses the physical activity component of Building Healthy Places' initiatives. Specifically, this RFP seeks competitive proposals for the implementation of sustainable and equitable infrastructure, policy, and exercise opportunity improvements to greenspaces, such as parks and trails, in order to create or enhance access to safe and enjoyable public spaces for physical activity in Northwest Michigan. By improving the aesthetics, accessibility, and safety of public greenspaces, the project aims to increase the percentage of adults and youth who meet federal physical activity guidelines, ultimately reducing poor health outcomes and health disparities in Michigan.

This grant seeks the implementation of improvements to public greenspaces through:

1. **Infrastructure.** This grant’s primary focus is to promote physical activity through improvements to public greenspace environments.

   Examples of infrastructure enhancements include (this is not an exhaustive list):

   - Installation of lighting sources to improve safe walking and biking conditions
   - Renovation or development of fencing, walking paths, trails, and/or signage
   - Addition of crosswalks to connect nearby neighborhoods to park or trailheads
   - Installation of bike racks, drinking fountains, and benches
The funds cannot be used to purchase playground equipment, but can be used to enhance playground landscaping, such as to install rubber flooring for injury prevention purposes.

2. **Physical Activity Programming.** Organized exercise opportunities in parks has been shown to further connect public greenspaces to improved community health. Evidence-based recreational activities showcase how to use public greenspaces for physical activity, promote a sense of community around outdoor exercise, and provide an opportunity to evaluate greenspace usage. Within the grant period, it is an expectation that grantees will host physical activity programming within greenspaces. The Health Department, in partnership with the Michigan Recreation & Park Association (mParks), will assist awarded sites in the implementation of *Come Out & Play* or *Walk Michigan*.

Each proposal **must** include one of the following Physical Activity program options:

### Come Out And Play (COAP) (Youth-focused):

Come Out and Play! Is an evidence-based physical education program for youth that promotes overall fitness, learning and fun outdoors! Developed by the Michigan Recreation and Park Association (mParks), COAP empowers youth to use play as a foundation for healthy lifestyle, while also teaching social and emotional health, and intellectual development.

Physical Activity in play is critical for healthy lifestyles and the development of the mind, body, and spirit. As communities across the country are seeking diverse partners to help address the dramatic rise in childhood obesity and combat sedentary lifestyles, COAP is an effective solution that intentionally promotes fitness and physical activity. COAP provides a way for parks and recreation, schools, summer camps, faith-based organizations, and many more to adapt traditional PE to a fun, outdoor-based play experience.

The COAP activities combine cardiovascular, bone and strength promoting play, supports gross motor development, and improves critical thinking and problem-solving skills through creative interactions with nature. Unique to COAP, this program highlights Michigan’s great outdoors by using nature as a natural playground, while also connecting youth and their families to greenspace and inspiring environmental stewardship.

Benefits of COAP include:

- Help schools and recreation facilities reach 60 minutes of recommended physical activity
- Promotes moderate to vigorous levels of physical activity
- Engages children, families, and communities to be active in their parks, trails and greenspaces
- Reinforces the significant health and developmental benefits offered through outdoor play environments
- Maximizes community greenspace investments for use during free play, structured physical education, and before/after school programming
- Helps link to potential funding aligned to support health and wellness initiative
Program Components:

1. Facilitator Manual: Overview of COAP and directions to implement program
2. Activity Calendar: Six-day COAP calendar with activities, quests and lessons to teach
3. Activities: Get children moving, tracking steps, and introduces a variety of nature concepts for an average of 20 minutes or more of play
4. Quests: Special activities that challenges families to be physically active together while having fun and enjoying nature
5. Activity Records: Fun way for children to record their daily physical activity (i.e., daily step counts)
6. Step Tracker Recording Sheet: COAP staff records and tracks the number of steps taking by participants during COAP activities daily

mParks will assist awarded greenspaces in the implementation of COAP.

Walk Michigan (Adult/Senior-focused):

Walk Michigan is an eight-week virtual walking program aimed at connecting Michigan parks, trails, and greenways to healthy living. Walking outdoors in parks and on trails is the central activity of Walk Michigan. As a Michigan-based program, participants virtually progress along the 1,259 miles of the Iron Belle Trail by tracking steps during group and individual walks. While designed as a walking program, walking is not the only form of physical activity that everyone enjoys. Simply building on the importance of being active in greenspaces, participants can log other physical activities into miles walked.

Unlike other walking programs, Walk Michigan takes place in local parks, trails and greenways, encourages teamwork and social interaction, and is inclusive to all forms of physical activity.

Program objectives include:

- Improve health and wellness by developing healthy habits that encourage physical activity in greenspaces to help protect physical and emotional health.
- Support a healthy lifestyle through the nature-health connection to prevent/manage illnesses and chronic diseases.
- Strengthen the connection between greenspace physical activity and social support networks as an effective (and sustainable) lifestyle program.
- Promote Michigan parks, trails and greenways as accessible places to be active as part of a healthy lifestyle across a lifespan.

Components of Walk Michigan include:

- Join a team for an 8-week program
The 8-weeks can be done consecutively or split into 4-weeks (PRE) and 4-weeks (POST). For example, a 4-week spring program followed up with a 4-week fall program might be the best option to accommodate weather and participation.

- Encourage your family, friends, neighbors, and co-workers to form teams and build a healthy habit using your local greenspaces to be active.
- Report your miles to team captains each week.
- To evaluate the success and benefits of the walking program, entry, exit, and tracking forms of energy, social interaction and satisfaction with their community.
- Participate in community kick-off and celebration events.

*mParks will assist awarded greenspaces in the implementation of Walk Michigan*

7. **(Optional) Policy.** Amendments and/or additions to policy in enhanced public greenspaces can support the overall health and safety of our communities. If applicants propose a health-related policy for the greenspace, such as a Complete Streets or Tobacco-Free policy, or if a health-related policy already exists at the site, then funds could be used to support the adopted policy for items such as signs, crosswalks, or sidewalks. Policy improvements are encouraged but not required.

This grant opportunity maintains the following goals:

1. Develop and/or implement transportation and community plans that promote walking and biking
2. Strengthen community promotion of physical activity through signage, policies, and social support in communities

The Health Department of Northwest Michigan will work with awarded communities to promote physical activity at their enhanced public greenspace and market their site improvements.

**The timeline for this project is January 27, 2020 through August 30, 2020.**
Eligibility Criteria:

1. Eligible sites include parks, trails, and other public greenspaces with existing infrastructure, such as playground equipment, walking paths, etc. New public greenspaces that will be developed in 2020 with secured and existing funds are also eligible to apply.
2. Eligible applicants include any department, agency, special purpose district, or other instrumentality of a local government. Other eligible applicants include public school districts, Indian Tribal organizations, or 501(c)(3) non-profit organizations.
3. Greenspace sites must be open and free for the public. Funds will not be awarded to sites that collect money for greenspace use.
4. Greenspace sites in the following counties are eligible to apply for this funding opportunity:
   - Emmet
   - Charlevoix
   - Antrim
   - Otsego
   - Kalkaska
   - Grand Traverse
   - Benzie
   - Leelanau
   - Missaukee
   - Wexford
   - Manistee
   These counties were selected based on rates of obesity, rates of physical activity, and existence of ongoing chronic disease interventions.
5. Applicants must be financially and managerially responsible for the proposed greenspace.
6. Applicants must demonstrate the capacity to implement and sustain proposed site changes.
7. Applicants must demonstrate the capacity to implement mParks’ Walk Michigan or Come Out & Play.
8. Applicants are permitted to apply for funds to enhance ONE (1) public greenspace.

Funding:

Communities are invited to apply for up to $10,000 to implement infrastructure, policy, and exercise opportunity enhancements that promote usage and access to increase physical activity at the greenspace.

This grant aims to fund sustainable public greenspace improvements to create a lasting impact on the health of our communities. Applicants will be asked to authorize a statement confirming their capacity to sustain ownership of the enhanced greenspace, so that communities can benefit from the improvements for years to come.
Submission Deadline & Process:

Please send a brief letter of intent to k.horan@nwhealth.org by Friday, November 22, 2019.

To be considered for funding, proposals must be received at the Health Department of Northwest Michigan by 5 PM on Friday, December 13, 2019. Applicants may submit completed proposals via email to k.horan@nwhealth.org or by U.S mail or overnight carrier—provided it is received by 5:00 PM on Friday, December 13, 2019. Mail submissions must be addressed to:

Health Department of Northwest Michigan
ATTN: Kirstyn Horan
3434 M-119, Suite A
Harbor Springs, MI 49740

Selection Criteria:

Priority will be given to applicants who:

- Evidently consider equity and health promotion to be the primary motives and frameworks guiding all proposed site changes
- Provide concrete ideas that prioritize expanding site access to marginalized populations, including low income families, people of color, people with disabilities, and seniors
- Propose health-related policy improvements
- Clearly demonstrate advanced capacity to complete the proposed changes within the grant period and sustain the improvements thereafter
- Secured additional grant funds or matching funds to expand the greenspace improvement project if needed.
- Maintain collaborative partnerships with community members, agencies, or organizations that would aid in the development and sustainability of greenspace enhancements, physical activity programming, and/or policy development/enforcement
- Incorporated (or would incorporate) community feedback into proposed site changes

Proposal Content:

To be considered for funding, proposals must include the following:

1. Cover letter
2. Completed Application Form signed by greenspace manager (see page 17)
3. Work plan outlining proposed infrastructure changes, responsible persons, and timeline. (Template is included in Application Form)
4. Budget and budget justification. If additional grant funds or matching funds are anticipated, please include them in the budget. (Template is provided in Application Form)
5. Letter(s) of support
Request for Assistance:

An optional application information conference call is scheduled to assist prospective applicants with RFP questions on **Monday, November 25, 2019 from 1-2 PM.** If you wish to participate in the conference call, please RSVP to k.horan@nwhealth.org by close of business on **Friday, November 22, 2019.** To join the Application Information Conference Call, call 712-770-5581; code 456534.

For additional assistance, please email questions to k.horan@nwhealth.org with the Subject Line “RFP.”

</tbody>
</table>
How will you ensure that your proposed infrastructure enhancements meet community needs, and that the public greenspace is accessible to everyone, regardless of income, race, physical ability, age, etc.?
Please describe current activities that demonstrate your capacity to complete and sustain the proposed infrastructure changes. Discuss the availability of necessary support, staffing, expertise, funding, and technology to implement and sustain greenspace improvements.
The Health Department of Northwest Michigan has partnered with mParks, Michigan’s Recreation and Park Association, to assist awarded greenspace sites with the implementation of physical exercise programming. Specifically, each site **must** select *Come Out & Play* or *Walk Michigan* (see page 3 for detailed program descriptions).

Please describe your capacity to implement *Come Out & Play* or *Walk Michigan* as physical activity programming in the public greenspace. What type(s) of exercise opportunities would best meet your community’s needs? Describe the group(s) you would target for programming (e.g. youth, seniors, families, etc.). Based on your community’s needs, target population(s), and greenspace capacities (following infrastructure enhancement).
Interventions that combine multiple types of changes can create a larger impact on the health of communities. For example, a greenspace that implements infrastructure changes (e.g. lighting, signage) in combination with interpersonal engagement opportunities (e.g. an educational walking group) as well as policy improvements (e.g. a smoke-free policy) will be more effective at increasing physical activity than a greenspace that only changes their infrastructure. Policy enhancements are encouraged but not required for this RFP.

Are you proposing any amendment(s) and/or additions to health-related policy in the greenspace? If so, please detail your plans. How might the proposed policy changes impact health? How would you use grant funds to support the adoption or enforcement of health-related policy? If you do not plan to adopt or amend health-related policy in the greenspace, please leave this question blank.

If you plan to collaborate with an existing or prospective partner on the implementation of the proposed greenspace enhancements, please describe the partnership. How do you plan to share and delegate tasks?
Please explain how you would market your proposed greenspace enhancements and why you think your promotion approach could effectively increase greenspace usage in your community.

“I am an official representative of my organization, and I endorse this grant proposal. I agree that my organization is eligible to apply for funding, and if a grant is awarded, my organization will carry out the project as outlined in this proposal. On behalf of my organization, if a grant is awarded, I am providing assurance that we are responsible for sustaining the improved greenspace through financial and personnel resources, and we are committed to supporting the improved greenspace as a benefit to the community for years to come.”
